THINK. INVENT. SOLVE.

[Read our blockchain whitepaper for startups](#)

Blockchain Strategy Assessment

Blockchain applicability, business/system impact analysis, right blockchain framework selection, and implementation strategy.

Blockchain Labs

Leading the way in blockchain technologies interoperability and conduct hackathon to foster innovation using key blockchain frameworks and innovative technologies from other startups.

Blockchain solution design

Blockchain solution design using our in-depth experience in blockchain and security technology and knowledge of industry operating models and processes.

Blockchain Proof of Value and Proof of Concept

Rapid development using a suite of blockchain toolsets and frameworks.

Blockchain solution implementation

Blockchain framework / tool integration, custom coding, testing, infrastructure setup, deployment, integration with other enterprise IT systems and support.

Let's Think. Invent. Solve.
for you.

THINK. INVENT. SOLVE

Blockchain! Blockchain! Blockchain!

The possibilities of blockchain technology are endless. New use-cases are being discovered each day. NextGen Invent is empowering business executives in making better decisions related to decentralized applications (dApps or DApp) that utilize blockchain technology and existing blockchain frameworks.

Is Blockchain right technology for my business?

Blockchain technology is not for all applications and use cases. [Answer these simple questions to find out if it fits your use case](#)

Which blockchain framework is right for your business?

In a constantly growing technology, it is common to ask why there are so many blockchain platforms and what the different capabilities of each one? [Here is the summary for you](#)

Which KPIs to attract Investors?

Investing venture capitalists look for key performance indicators (KPIs) when selecting a blockchain application/company/project to invest in. [Here are the KPIs](#)
